

Cisco TelePresence Touch Promotion

Your customers can experience the innovative unified user interface that enables them to access Cisco TelePresence intuitively. Cisco TelePresence Touch devices are optimized for function, form factor, and ergonomics to offer your customers easy launch and manageability during a Cisco TelePresence call. With Cisco TelePresence Touch, customers can make and manage video calls, share content, and access advanced features — all with the simple touch of a finger.

Exciting New Offer:

For a limited time, customers can purchase the 8-inch Cisco TelePresence Touch at 50% off the GPL! The Cisco TelePresence 8-inch Touch device is designed specifically for Cisco TelePresence and brings simplicity to the user. The Cisco TelePresence 8-inch Touch will work the Quick Set C20, Codec C40, Codec C60, Codec C90, and C-Series Profiles that shipped with a remote.

Features and Benefits:

- **Simple set-up** — one cable connection to network
- **Easy to connect** — select from list of video endpoints
- **Seamless collaboration** — select the device they want to share
- **Consistent experience** — shared experience across the endpoint portfolio
- **Reduced learning curve** — clear, context-based interaction

Take Advantage of this Limited Time Offer!

This offer will be available from June 20, 2011 **through October 29, 2011** — act fast!
